**Dear Bill Gates:**

Please kindly remit payment of \$10,000, a payment that you owe me. Please understand that the bill will accrue interest at the rate of 1% per month.

When I bought your products, I did not do it to cede my rights to life, liberty, or happiness, nor to allow you to control the health care system with the control of your money over science and institutions.

Therefore, I am sending you this bill for you to return the excessive exploitive profits.

As you know, with the First Worldwide Constitutional Amendment, the public will gain the right to decide how all monies, over the first five billion you have, are to be spent through a democratic process of vote by referenda. However, until that is passed, you must pay the bill you owe to society, and in this case, to me.

Don't worry, there is still plenty left for you to spend to meet your needs. However, you no longer are allowed to decide what the world needs - that right will be restored to the people, under a just government of, by and for the people. Your royal rule has come to an end.

Thank you.

**PLEASE NOTE: YOU ARE UNDER NOTHING BUT A MORAL OBLIGATION TO PAY THIS.**

*P.S. In case you feel this letter is not reflective of CAPITALISM, it is. It's capitalism because I'm sending you a bill. That's how capitalism works, those who send out the bills win. Now, pay your bill.*
